

Python Beginner Class 初级班

Course Details

教学目标 (Learning Objectives):

Ready to create the next big game, mathematics, or digital art? Join our beginner-friendly Python class, where coding becomes your new creative superpower! You'll learn by doing—starting with simple, fun projects on day one. We will unlock the logic behind technology, from automating tasks to building interactive stories, all in a language as readable as English. No prior experience is needed, just your curiosity and ideas. Let's turn "what if" into "what's next" together!

准备好创造下一个超级游戏、数学模型或数字艺术作品了吗？加入我们适合零基础的 Python 课程，让编程成为你的全新超能力！你将通过实践来学习 — 从第一天就开始完成简单又有趣的小项目。我们将揭开科技背后的逻辑，从任务自动化到构建互动式故事，一切都用像英语一样容易理解的编程语言来完成。无需任何编程经验，只要带上你的好奇心和创意。让我们一起把“如果可以”变成“接下来会发生什么”吧！

Python Intermediate Class 中级班

Course Details

教学目标 (Learning Objectives):

Ready to level up from the basics and build things that truly feel like your own? Welcome to the Python Intermediate Class! Here, you'll dive deeper into core concepts like organizing complex data, building your own libraries of reusable code, and creating graphical applications from the ground up. We'll shift from "following steps" to "designing solutions," focusing on real-world skills like project planning, machine learning, and writing efficient, powerful code. Transform your ideas into fully functional, shareable projects and watch your creativity come to life through code.

准备好从基础进阶，开始打造真正属于你的作品了吗？欢迎加入 Python 中级班！在这里，你将更深入地学习核心概念，例如组织复杂数据、构建可重复使用的代码库，以及从零开始创建图形化应用程序。我们将从“照着步骤做”转变为“设计解决方案”，重点培养真实世界中的实用技能，如项目规划、机器学习，以及编写高效而强大的代码。把你的想法转化为完整、可分享的项目，让你的创造力通过代码真正鲜活起来。
